Summary

B.Tech Computer Science graduate with a CGPA of 8.79, specializing in Generative AI, Agentic AI, and full-stack development. Experienced with Python, LangChain, LangGraph, LLMs, RAG, AI agents, FastAPI, React, Node.js, REST APIs, WebSockets, and scalable backend architectures.

Technical Skills

Programming Languages: Python, JavaScript, SQL, Java, C++, C

Generative AI & Agentic AI: LLMs, Agentic AI, AI Agents, Multi-Agent Systems, Retrieval-Augmented Generation (RAG), LangChain, LangGraph, Prompt Engineering, Embedding Models, Vector Databases, LLM API Integration

Backend & APIs: FastAPI, Flask, Node.js, Express.js, REST APIs, WebSockets, Server-Sent Events (SSE), JWT Authentication, Async Programming, Microservices

AI/ML & Computer Vision: PyTorch, TensorFlow, OpenCV, YOLOv8, Convolutional Neural Networks (CNNs)

Databases: MongoDB, MySQL, PostgreSQL

Developer Tools: Docker, Git, GitHub, Linux, Postman, CI/CD Concepts

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, System Design Fundamentals, Software Development Life Cycle (SDLC)

Experience

PASHUPATASTRA SOLUTIONS

Jun 2026 – Present

Software Developer Intern

- Developed full-stack web and mobile applications using React, React Native, Node.js, Express.js, MongoDB, and REST APIs.
- Built responsive UIs, integrated backend services, and optimized application performance.
- Collaborated with cross-functional teams using Agile practices to develop, debug, test, and deploy scalable applications; contributed to AI-powered applications and API integrations.

Department of Revenue and Land Reforms

Dec 2025 – Jan 2026

Technical Intern

- Supported government IT systems for land and revenue data through application workflows, data handling, and digital governance processes.

SmartInternz (AICTE & Salesforce)

Aug 2023 – Sep 2023

Salesforce Developer Intern

- Designed CRM workflows and data models using Apex and Lightning components for simulated enterprise business processes.

Selected Projects

AI-Powered ERP Graph Explorer

[GitHub](#) | [Live](#)

React.js, Node.js, Express.js, PostgreSQL, Gemini AI, React Flow, REST APIs

- Built an AI-powered graph explorer that transforms SAP Order-to-Cash datasets into an interactive knowledge graph with 580+ interconnected nodes.
- Implemented natural-language-to-SQL querying with Gemini AI, conversation memory, normalized PostgreSQL schemas, REST APIs, SSE streaming, query guardrails, and end-to-end O2C flow tracing.

World Chat – Real-Time Global Messaging Platform

[GitHub](#) | [Live](#)

Python, FastAPI, WebSockets, MongoDB Atlas, JWT, HTML, CSS, JavaScript

- Developed a real-time messaging platform using FastAPI, asynchronous WebSockets, and MongoDB Atlas for low-latency communication, live messaging, typing indicators, and event broadcasting.
- Implemented JWT and Bcrypt authentication, role-based access control for Guest, User, and Admin roles, online-user tracking, and automated profanity filtering.

LLM-Powered AI Assistant Chatbot (Google Gemini)

[GitHub](#) | [Live](#)

React, Node.js, Express, Gemini API, JavaScript

- Developed a full-stack AI assistant with a React frontend and Express.js backend using REST architecture and Gemini API integration.
- Implemented request validation, API key management, chat history, markdown rendering, PDF export, theme customization, Git-based version control, and debugging practices.

Aerial Watch – Drone-Based Intruder Detection System

[GitHub](#)

Python, OpenCV, YOLOv8, Flask

- Developed a real-time human detection system using YOLOv8 for video-stream analysis with confidence filtering, cooldown mechanisms, and event snapshot logging.
- Integrated machine-learning inference with Flask backend services for live monitoring and video streaming.

Education

B.Tech, Computer Science & Engineering

Nov 2022 – May 2026

Purnea College of Engineering, Purnea

CGPA: 8.79

Achievements and Certifications

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate; TCS National Qualifier Test 2026 – Digital Candidate; Top 1% rank in NPTEL Programming in Java; Cisco Networking Academy CCNA certifications; solved 100+ DSA problems on LeetCode; top position at district-level science fair for Multi-Face Recognition System.
